Glimpses of the Institute

Techno College of Engineering Agartala (TCEA), a unit of Techno India Group (Approved by AICTE, Govt. of India and Affiliated to Tripura University) was established in the year 2014. At present the Institute is running with 8 UG level courses and 3 Diploma Courses. Out of these courses, 3 degree courses and 3 diploma Courses are in the field of Emerging Technology. The Institute is dedicated to creating highly trained professional manpower in various disciplines of Engineering and Technology with an aim in creating individuals with high moral, commitment, dedication & loyalty to serve the society and the nation.

About Organizing Department

The Department of Civil Engineering at TCEA, Agartala is established in the year 2014 to impart quality education and conduct research in Civil Engineering to cater to the rising needs and demands of society. The Department has constantly been equipping itself with technological advancements of national priority and flexibly adapting to changing scenario in the field of Civil Engineering.

Objective of the FDP

Recent advancements in the Civil Engineering field have widespread impacts on the infrastructural development throughout the world. The advancements compel the Civil engineers to incorporate these advanced solutions in context of various analyses and design. The program basically aims to impart the knowledge about recent techniques used in the field of Civil Engineering. The motive of this FDP is to gather the experts of different domains and knowledge seeking people and have fruitful interaction under one roof. The participants will learn about the new infrastructure techniques that can be used in India for continuing its journey toward sustainable and developed economy. The theme thus emphasizes on recent advancement in the civil engineering field with focus on Sustainable Infrastructure for making our cities smart for a better future of our civil engineering profession.
